

## SEE YOU IN PARADISE

Little to choose between truth or dare  
Sometimes I feel that close no words can say  
Like I could turn around and you'd be there  
Yet other times it seems you're light years away

When you close your eyes do you see me  
Do you see me at all  
Well I want your loving and I need your loving  
But I can wait some more  
And if you open your mind do you think of me  
Do you think of me at all  
And if it can't be here then take my tear  
And I'll see you on Canaan's shore...

As the last of the night shadows chase  
Lost to the inspiration of the dawn  
I feel I only have to reach out to touch your face  
For in the clouds I thought I saw a unicorn

When you close your eyes do you see me  
Do you see me at all  
Well I want your loving and I need your loving  
And I'm waiting for my prize  
And if you open your mind do you think of me  
Do you think of me at all  
And if the timing's wrong then take this song  
And I'll see you in paradise...

Coincidence - oh I doubt  
Someday I'll talk to you of destiny  
But right now well I can almost taste your mouth  
So how can I do anything else but believe

When you close your eyes do you see me  
Do you see me at all  
Well I want your loving and I need your loving  
But I'll wait for the day to shine  
And if you open your mind do you think of me  
Do you think of me at all  
And if we're world's apart then take my heart  
And I'll see you in the next lifetime...
